ABOUT ME

Computer Science student specializing in Full-Stack Development and Cybersecurity. Experienced in building secure applications using AES encryption during DRDO internship. Strong foundation in backend development, APIs, and cryptographic systems with hands-on experience in web, mobile, and security-based projects.

SKILLS

Languages: Java, Python, C, JavaScript

Frontend: HTML, CSS, JavaScript, React.js, Responsive Design

Backend: Node.js, Express.js, FastAPI, REST APIs

Database: MySQL, MongoDB

Mobile Development: Android (Java), API Integration

Core CS: Data Structures & Algorithms, Cryptography, Cybersecurity, OOPs, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, VS Code, Android Studio, Figma, Canva

Other: Technical Writing, Research Presentation, Team Collaboration

PROJECTS

AES-GCM Secure Encryption Web App (Full Stack)

- Built a full-stack web application implementing AES-GCM encryption for secure data encryption and decryption.
- Ensured confidentiality and integrity using authenticated encryption techniques.
- Developed REST APIs for encryption/decryption with a responsive user interface.
- **Tech Stack:** React, HTML-CSS-JS, Node.js, Express.js, MongoDB, AES-GCM
- [Project Link](#)

Social Media App (In Progress)

- Building a full-stack social media platform with posts, likes, comments, and profiles.
- Implementing authentication and real-time user interaction features.
- **Tech Stack:** React, Node.js, Express.js, MongoDB
- [Project Link](#)

Portfolio Website

- Designed and developed a responsive personal portfolio website.
- Implemented dark mode and interactive UI sections.
- **Tech Stack:** HTML, CSS, JavaScript
- [Project Link](#)

MapChatbot (Voice-Based Traffic Assistant)

- Developed a voice-enabled assistant for traffic and weather updates.
- Integrated Google Maps API, OpenWeather API, and LLM-based responses.
- Enabled hands-free navigation and location-based assistance.
- **Tech Stack:** Android (Java), FastAPI, LangChain

WORK EXPERIENCE

DRDO (Integrated Test Range)

Intern

- Developed AES encryption and decryption systems for secure data handling.
- Gained practical experience in cryptography and secure system design.
- Worked on real-world defense-related secure communication concepts.

National Aluminium Company Limited (NALCO)

Ongoing Intern

- Developing a full-stack complaint management platform with admin dashboard and REST APIs.
- Working on React.js, Node.js, Express.js, and MongoDB integration.
- Participating in frontend-backend integration and feature development.
- [Live Project Link](#)

EDUCATION

Kalinga Institute of Industrial Technology (KIIT)

B.Tech in Computer Science Engineering — CGPA: 8.03

Modern Public School

Class XII – 66%

St. Vincent Convent Senior Secondary School

Class X – 86%

ACHIEVEMENTS & ACTIVITIES

- Participated in Machine Learning course.
- Received “Arcade Champion” swags from Google Cloud Arcade.
- Presented research paper on “Time Management in Indian Household during Festive Preparation” at the 2nd National Conclave on Viksit Bharat @2047.
- Presented research paper on “Quantifying the Socio-Economic Drivers of Rural Tourism” and received Best Paper – Technical Session award at the 3rd National Conclave on Viksit Bharat @2047.
- Served as organizing committee member in AISOC society.
